

bunq Update 17: aperçu

Trie tes revenus automatiquement et explore de nouveaux endroits avec tes amis grâce aux fonctionnalités améliorées et aux cartes de bunq Update 17.

De quoi as-tu besoin ?

Dans cet article

Hey bunqers 🌈,

bunq Update 17 brings you many amazing features!

Let's take a look at them!

- **Easy Bank** 🏠: Everything you would expect from a bank. Features that let you enjoy precious time with your friends together and explore Places for unforgettable experiences.
- **French IBANs** 🇫🇷: Coucou la France! Fully compatible with a fully compatible RIB, thanks to our new French IBANs for bunqers residing in France.
- **SOS Support** 📞: SOS? No sweat, we'll help you out. Reach out through the app or call our number. Follow-up becomes our nr. 1 priority – saving you time.
- **Price Update** 📌: We're constantly working on it. We've invested in new benefits and features that will make your life easier. We've made some changes to Pricing that we'd like to share with you.

- **Designed with your mind** 🧠: To smoothen your experience, we've improved the bunq essential features by making them easier to access. Pay and Request are just a tap away, adding Bank Accounts and ordering new cards is now easy as ABC and you can quickly find anything you need with a dedicated search bar.
- **Batch Actions** 🛍️: Want to split 5 payments after a night out with friends? Or add multiple payments to an activity? Simply select all the events in the app, and sort them out with one tap!
- **Salary Sorter** 🌸: Automagically let incoming payments flow to Bank Accounts, your savings goals or any IBAN from any bank. Be it your landlady, a charity close to your heart or the ski trip you're saving up for, you're sorted month after month!
- **Friends 2.0** 🧑🧑: The Friends tab just got an upgrade! Check out the map to see the countries you've visited (in green), or the countries you've visited together (in blue). Same group, new adventure? You can start a new group without any hassle!
